Palouse Beer for Your Home.

Almost any kind of beer will satisfy some people, but in the home none but the purest should be used. In our brewery cast of manufacture is a secondary consideration. First, last and all the time our constant endeavor is to produce a beer that will be second to none in the world.

Our Real "Bohemian" and "Palouse Empire" Bottled Beer in bottled form is ideal beer for home use. None but the best selected malt and Bohemian hops enter into its manufacture. Our beer is absolutely free from any chemical preservative and deleterious substances, as well as disease germs. As to purity, it is above even suspicion. You could not say this of your city water, nor of the milk. **No typhoid germs in beer.** Why not always keep a few bottles ready for use in your ice box.
