

Penmanship COLORING BOOK

University of Scranton Weinberg Memorial Library
#ColorOurCollections 2017

The pages in this book were created using images from the University of Scranton Weinberg Memorial Library's Digital Collections. Images were digitized from original artwork, publications, and albums from the [Zaner-Bloser, Inc. / Sonya Bloser Monroe Penmanship Collection](#), the [Horace G. Healey Collection](#), and the [P. W. Costello and Family Art Collection](#), all part of our [Helen Gallagher McHugh Special Collections](#).

Please note: We've edited the images to increase their "colorability." In many cases, this process obscured some of the incredible detail and shading in the original work. We encourage you to explore the master scans (and the many, many other items in our collections!) at digitalservices.scranton.edu.
