IO. FROBENIVS POLITIORIS LITERATURAE CULTORIBUS, S:

Adniti sumus aditione proxima, ut hoc opus cum primis frugiferu, quam emendatissimu prodiret in lucem, nec arbitror queneq; inficiaturu, id nos infeliciter fuisse conatos: nunc quicquid in arte mea posunt promittere cura, id totu expromptu est. Accessit & autoris opera, qui multa uel auxit, uel reddidit meliora. Atq; utina hoc diu illi liceat, in studiorum lucrum potius quam meu. Sed uereor ne hac recognitionem ab illo simus habituri postrema. Qui literario gaudet lucro, habent hic lucru no aspernandu: quibus res est angustior domi, quam ut identide idem opus merent, habet postrema, ni fallor, autoris recognitione, simul & locupletatione. Bene ualere, & nostrae industriae, si promereor, fauete.
