# The Glittering Plain

Vault Collection

Chapter XV. Yet Hallblithe speaketh with the king.

O wore the days and the moons;  
& now were some six moons worn  
since first he came to the Glitter-  
ing Plain; and he was come to  
Wood/end again, and heard and  
knew that the King was sitting  
once more in the door of his pav-  
ilion to hearken to the words of his

# How Plants Grow

## Environment & Natural History Book Collection

### 6. WATER-LILY FAMILY. Order NYMPHÆACEÆ.

Water-plants with flowers and leaves on long footstalks, rising out of the water or resting on its surface; the leaves either shield-shaped or deeply heart-shaped. Petals and stamens generally very many. — To the proper Water-Lily family may here well enough be added the Water-shield and the Nelumbo, each of a single species. This gives us four genera, which are distinguished as follows: —

273

Fruit of Nelumbo.

271

272

270. Flower, bud, and leaf of White Water-Lily. 271. Flower with the parts cut away, all but two petal-like stamens, one ordinary stamen, and the compound pistil. 272. Slice across the 11-celled pistil.

1. Leaves and flowers from very thick and long creeping rootstocks. Sepals and the many petals and stamens gradually blending into each other, and growing to the surface of the many-celled and many-seeded compound pistil. Flower white, sweet-scented, (*Nymphaea*) **WHITE WATER-LILY**
