

Color Our
Collections
2024

This year the Sanford Museum is showcasing cartoons from the

Sanford Herald

for #ColorOurCollection.

Old clippings and issues of the Sanford Herald can be found on microfilm at both the Sanford Museum and the Seminole County Museum of History.

The University of Central Florida's RICHES Program partnered with the Seminole County Museum of History to scan their microfilm and digitize it for researchers! Link below or follow the QR code.

Show off your art by tagging us on Facebook or Instagram @SanfordMuseumFl or #ColorOurCollections!

We can't wait to see your art!

AROUND

THE CLOCK

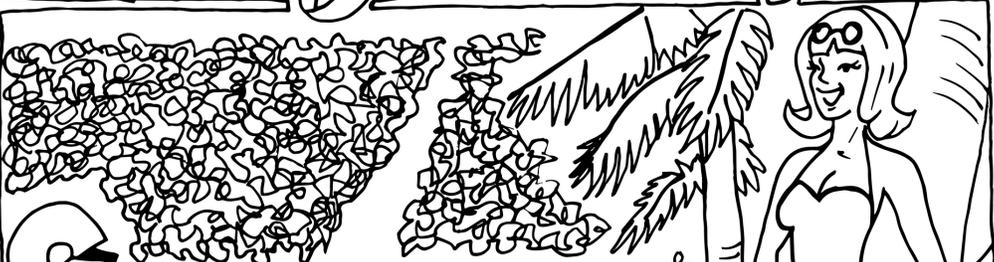

SANFORD GROWERS ARE COMING INTO THEIR OWN

Twenty Cars of Lettuce and Twenty of
Celery This Week Will Total \$30,000

The Sanford Herald, May 2, 1913

#ColorOurCollections

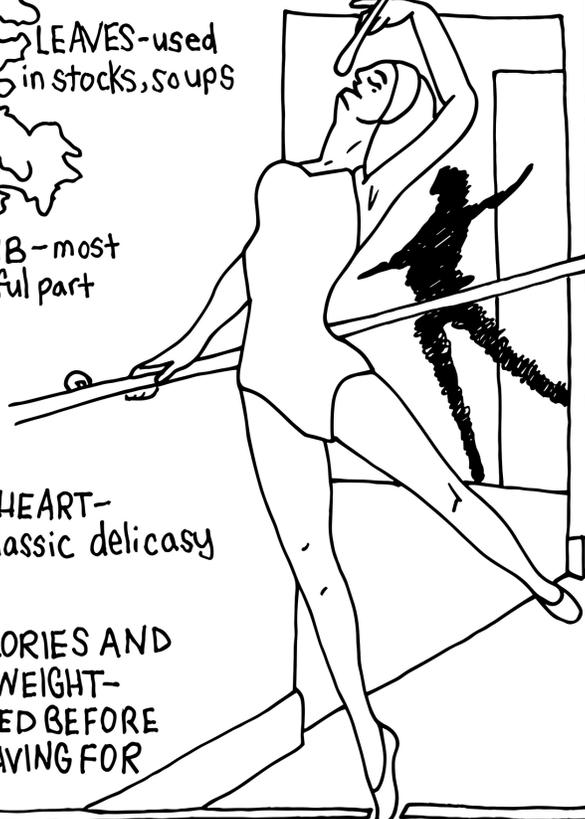

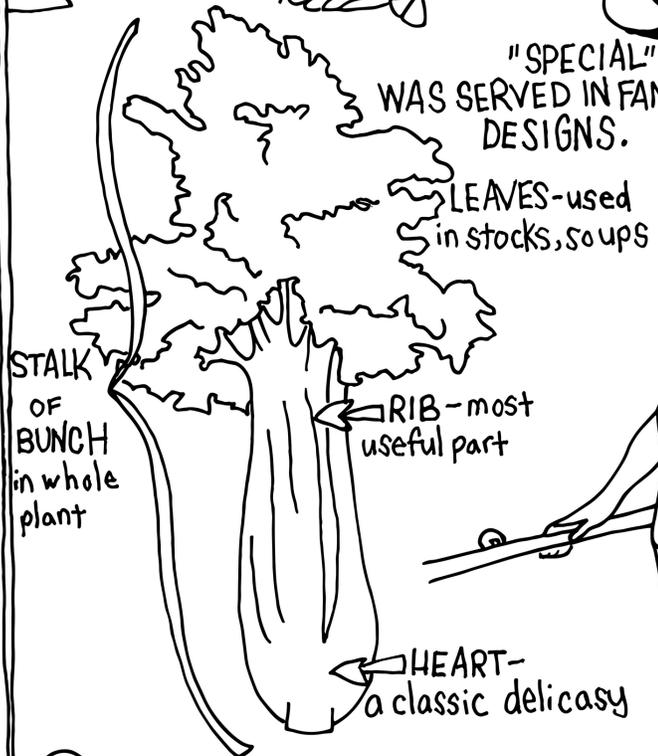

Celery - Glamor Vegetable

GLAMOROUS CELERY HAS LOVED FLORIDA SINCE THE 1890s. FORTY PERCENT OF CELERY EATEN IN U.S. GROWS IN SUNSHINE STATE.

CELERY WAS SO "SPECIAL" A CENTURY AGO IT WAS SERVED IN FANCY VASES OF MANY DESIGNS.

CELERY IS LOW IN CALORIES AND MAY BE EATEN FREELY ON WEIGHT-CONSCIOUS DIETS. NIBBLED BEFORE DINNER IT CUTS DOWN CRAVING FOR RICHER FOODS.

Roofs that Challenge Weather

It was Mark Twain who said, "Everybody talks a lot about the weather but nobody does anything about it."

Phone 130 ————— Sanford, Florida

Resolved:

THAT—The Daily Herald will be bigger and better than ever in the year of 1923, owing to the amount of our patronage as never before and publishing the best paper in this part of the South.

THAT—We shall strive to keep the name of Sanford and Seminole County before the people of the world telling the truth about our wonderful resources and bringing in new people and new capital to take advantage of the great opportunities afforded here.

THAT—The year of 1923 holds out such wonderful opportunities and the prospects everywhere are so bright for a most wonderful year that with the advantage here in Sanford the Daily Herald will strive to bring hundreds of new people, new enterprises and new industries here to assist in making Sanford a city of TEN THOUSAND people in 1923.

THAT—Having the best location in the State of Florida for a big city that we take advantage of this fact in 1923 and build our best hotel, our city pier and docks, our new million dollar hotel, our many improvements in streets and sewers and sidewalks and library and instead of doing over one million dollars worth of building this year that we make it over TWO MILLIONS.

THAT—In these big undertakings we have the cooperation and help of the people as a whole and under the Chamber of Commerce and all the clubs and civic organizations of the city we get together into the greatest body of workers that Sanford has ever produced and that we make it in reality.

A Happy and Prosperous New Year

AROUND THE CLOCK

SANFORD GROWERS ARE COMING INTO THEIR OWN

Twenty Cars of Lettuce and Twenty of Celery This Week Will Total \$30,000

Celery - Glamor Vegetable

CELERY HAS LOVED FLORIDA SINCE THE 1800S. FORTY PERCENT OF CELERY EATEN IN U.S. GROWN IN FLORIDA STATE.

CELERY WAS AN "ORIGINAL" A CENTURY AGO IT WAS USED IN MANY WAYS OF MANY DESIGNS.

LEAVES - used in soups, stews, etc.

STEM - THE MOST USEFUL PART

HEAD - of celery stalks

CELERY IS LOW IN CALORIES AND MAY BE EATEN FREELY ON WEIGHT-CONSCIOUS DIETS. WASHED BEFORE DINNER IT CUTS DOWN CRAVING FOR RICHER FOODS.

Roofs that Challenge Weather

It was Mark Twain who said, "Everybody talks a lot about the weather but nobody does anything about it."

But there is one thing you can do about the effect of weather on the roofs of your buildings. Cover them with our prepared roofing or shingles and you can laugh at intense heat, pounding rains, driving snow storms and severe cold.

Free booklets and samples. Call at our office and let us tell you how good roofings will save money for you and add distinctive beauty to your buildings through their cheerful colors.

Try an art challenge when coloring such as:

Only using different shades of the same color,
 only using cool or warm tones or
 only using different shades of complementing colors.
